PROFESSIONAL SUMMARY

Fresh graduate with a Bachelor's Degree (Hons.) in Cognitive Science from Universiti Malaysia Sarawak (UNIMAS), interested in Artificial Intelligence (AI), software development, mobile application development, data analytics, UI/UX design, and human-centered technology. Academic projects, a Data Analytics internship at ANGKASA, and the K-Youth Development Programme have given me experience creating mobile and web apps, analysing data, producing dashboards, and designing user-friendly digital solutions. Strong analytical, problem-solving, and communication abilities, as well as a dedication to lifelong learning and technology-driven solutions.

TECHNICAL SKILLS

Mobile App Development: Flutter, Dart, Firebase Authentication, Firebase Firestore, Firebase Storage, API integration, app navigation, form validation, user authentication, UI development.

Web Development & Programming: HTML, CSS, JavaScript, C++, MySQL, Jupyter Notebook, basic front-end development.

Database Management: Firebase Firestore, MySQL, Microsoft Access, table design, relationships, queries, forms, reports, data handling.

Artificial Intelligence & Data Analytics: Machine Learning Fundamentals, Jupyter, Google Looker Studio, Microsoft Excel, Power BI, Jupyter Notebook, dashboard reporting, KPI tracking, trend analysis.

UI/UX & HCI: Human-Computer Interaction, Design Thinking, usability testing, user flow design, wireframing, user-centered design.

Productivity & Documentation: Microsoft Word, Microsoft PowerPoint, report writing, system documentation, presentation slides, project documentation.

EDUCATION

Bachelor in Cognitive Science with Honours | Universiti Malaysia Sarawak (UNIMAS)

2024 - 2026

Expected Graduation: November 2026

Relevant Coursework:

- Artificial Intelligence
- Machine Learning
- Data Mining
- Human-Computer Interaction
- Web Programming
- Database Systems
- Cognitive Psychology

PROFESSIONAL DEVELOPMENT

K-Youth Development Programme

2026

- Completed an industry-focused graduate development programme designed to improve workplace readiness.
- Strengthened skills in Artificial Intelligence (AI), business communication, data analysis, presentation, networking, and professional portfolio development.
- Participated in practical learning activities and business case studies to enhance problem-solving and professional competencies.

WORK EXPERIENCE

Data Analytics Intern | ANGKASA (Apex Cooperative Organization of Malaysia) **July 2025 - October 2025**

- Collected, cleaned, and analyzed sales and financial data to support management decision-making.
- Built Google Looker Studio dashboards to track KPIs, weekly sales performance, and target completion.
- Used Microsoft Excel and Access to improve monthly sales target tracking and reporting accuracy.
- Conducted trend analysis, identified data patterns, and prepared insights for management reporting.
- Troubleshoot dataset and formula errors, reducing manual reporting issues and improving data reliability.
- Gained exposure to the CAMELS analysis framework for financial and project evaluation.

Part-Time Tudung Sales Assistant | Rose Beautifull Scarf, Tawau, Sabah **February 2025 - March 2025**

- Promoted and sold various tudung styles through social media and in-person customer engagement.
- Managed inventory, tracked sales, handled customer inquiries, and supported basic budgeting.
- Created Canva marketing posts and applied upselling techniques to improve product visibility and sales.

ACADEMIC AND GROUP PROJECTS

TravelTawau Mobile Application | Final Year Project

- Developed a tourism mobile application using Flutter and Dart to promote travel destinations, local attractions, and tourism services in Tawau.
- Designed user-friendly interfaces, structured app navigation, and applied HCI principles to improve user experience.
- Conducted usability testing and applied user-centered design improvements based on feedback.

SatayGo Application | Flutter Social/E-Commerce Group Project

- Designed and developed a Flutter-based social/e-commerce application for a local satay business.
- Implemented core features using Flutter, Dart, Firebase Authentication, and Firebase Firestore database integration.
- Improved app workflow, authentication process, user interface, and customer experience based on project requirements.

Lung Cancer Dataset Analysis | Fundamentals of Data Mining

- Cleaned and processed Kaggle Lung Cancer Patient Data using Jupyter Notebook for classification, clustering, decision tree analysis, and visualization.
- Generated statistical summaries and reflected on data ethics, model accuracy, and healthcare data decision-making.

Bloom Café E-Commerce Website | Web Programming

- Designed and developed a dessert-themed restaurant e-commerce website using PHP, MySQL, HTML, CSS, and JavaScript.
- Implemented database functionality for managing product information and user interactions using MySQL.
- Applied Human-Computer Interaction (HCI) principles to create clear product categories and an intuitive user experience.

LEADERSHIP AND ACTIVITIES

Treasurer | Cempaka Academic Club **2023 - 2024**

- Managed budgeting, fund allocation, and financial reporting for club activities.

Media and Publicity Team | Kelab SUCIE **2024 - 2025**

- Designed posters, social media content, and event announcements to support student engagement.

Registration and Participant Management Unit | EXCITE UNIMAS **2025**

- Managed participant registration and strengthened communication, organization, and problem-solving skills.

1st International Curricular Learning Experience **2024**

- Contributed to event coordination, documentation, and cross-cultural community engagement.
